- MARZOLI
- VOUK
- RIETER
- SAVIO
- ZINSER
- COGNETEX
- SCHLAFHORST
- SSM
- VOLKMANN

Our company has been established in 1992; our purpose has always been the distribution of spare parts for spinning machines with the direct technical support to the spinning manager.
We are a team of highly motivated and specialized people both commercially and technically so that the customer can have our total support. The financial choices we took, allowed us and today still allow us, a strong expansion. We work with our own capital and we operate with national/international banks and two local banks. We deal with the whole word, through our agents but also directly with the spinning mills.
Our strenghts are the speed and the accuracy that have always been our purpose.
Our location is very important for the quality and the speed of the service because we can rely upon hundreds of well-correlated sub-suppliers: from carpentry to precision mechanics, from plastic to electronics that we coordinated with our technicians to guarantee to the customer an excellent quality and a good technical support.
No less important, we are also manufacturer of lattices with or without pins and of staves for almost all brands of machine.
We are always improving and testing new products to increase our spare parts warehouse.

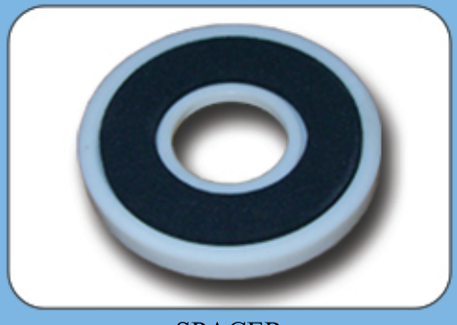

Nuestra empresa fué fundada en 1992, nuestro objetivo siempre ha sido la distribuciòn de piezas de repuestos para màquinas de hiladura con el apoyo técnico directo al técnico de mantenimiento.
Tenemos un equipo de personas muy valido tanto comercial como técnicamente para que el cliente pueda tener un apoyo total. Las decisiones financieras que tuvimos nos permitieron, y hoy todavia, nos permiten una fuerte expansión. Trabajamos con capital propio; operamos con dos bancos nacionales/internacionales y dos bancos locales. Trabajamos en todo el mundo tambien a través de nuestros agentes y tambien con las hiladuras. Nuestras fortalezas son la velocidad y la precisión que siempre han sido nuestro objetivo.
Nuestra ubicación es muy importante para la calidad y la rapidez del servicio, ya que tenemos una estructura formada por cientos de subfabricantes, desde la carpintería hasta la mecánica de precisión, desde el plástico hasta la electrónica que hemos coordinado con nuestros técnicos para poder garantizar al cliente un excelente calidad y buen apoyo técnico.
No menos importante somos también fabricantes de teleras con y sin puas y de duelas para cualquier marca de máquina.
Siempre estamos estudiando nuevos productos para complementar nuestro almacén de repuestos.

Şirketimiz 1992 yilinda kurulmuştur; Amacimiz her zaman Ring işletmeleri yöneticilerine doğrudan teknik destek veren ring makineleri için yedek parçaların dağıtımı olmuştur.
Müşterilerimizin toplam desteğimizi alabilmesi için hem ticari hem de teknik olarak yüksek motivasyonlu ve uzman kişilerden oluşan bir ekibiz. Aldiğimiz finansal seçimler bize izin verdi ve bugün hala bize izin veriyor, güçlü bir şekilde ilerliyoruz.
Kendi sermayemizle çalışiyoruz, ulusal / uluslararası bankalarla ve iki yerel bankayla çalışıyoruz.
Acentelerimiz araciliğiyla tüm dünya ile ve ayni zamanda doğrudan iplik işletmeleri ile de ilgileniyoruz.
Güçlü yönlerimiz, daima amacimiz olan hiz ve doğruluktur.
Konumumuz, hizmetin kalitesi ve hizi için çok önemlidir, çünkü yüzlerce iyi korelasyonlu alt tedarikçiye güvenebiliriz: marangozluktan hassas mekaniklere, plastikten elektroniğe, teknisyenlerimizle koordine ettiğimiz müşteriye garanti etmek. mükemmel kalite ve iyi bir teknik destek.
Ayni zamanda hemen hemen tüm makine markaları için pinli veya pinsiz örgü makineleri parçaları üreticisiyiz. Yedek parça depomuzu arttırmak için sürekli yeni ürünler geliştiriyoruz ve test ediyoruz.
